FREE SAMPLE · REASONING PRACTICE

29 Reasoning Puzzles — Free

A free taste of the full 150-puzzle collection — ONE puzzle of every reasoning type it teaches: seating (floor, row, circular, square, double-row, box), scheduling, ranking, syllogism, inequality, blood relations, coding-decoding, classification, data sufficiency, series, direction, input-output and more. Solver-validated, with full answers. For IBPS PO, SBI Clerk, SSC, RBI Grade B and all banking exams.

29 Puzzles | Every Reasoning Type | Free

Free sample · No sign-up needed

A product of Launchship IT & Media Services Pvt. Ltd. · deducepuzzles.com · t.me/deducepuzzles

How to Use This Sample

Arrangement puzzles give you a small group of people in a fixed arrangement (seats in a row or circle, a square table, floors, two facing rows, a stack of boxes, a week of appointments, or a 1-to-N ranking) and a handful of logic clues — eliminate the impossible placements, find the single arrangement that fits, then answer the question. Multiple-choice puzzles (syllogism, inequality, blood relations, coding-decoding, classification, data sufficiency, series, direction, input-output, eligibility and more) give a short prompt and options A–E — work the rule and pick the one defensible answer.

Method: draw the structure → find the absolute clue (an end / opposite / top floor / rank) → translate relative clues (left/right/higher-lower/next-to) into eliminations → check every clue before answering. Target ~60-90 seconds each — IBPS/SBI exam pace.

Every arrangement puzzle is **solver-validated** (exactly one arrangement fits all clues) and every MCQ answer is **engine-validated**. This sample is 29 of the 150 puzzles in the full eBook.

© 2026 Launchship IT & Media Services Pvt. Ltd.

How to Read Each Arrangement Type

A quick orientation to the five arrangement layouts, each with a tiny worked example and the one mistake that trips most solvers. (Multiple-choice types are self-explanatory from the prompt.)

Floor arrangement. People live on the numbered floors of a building, one per floor. Floor 1 is the lowest and floor N is the topmost. Clues fix who is above/below whom, how many floors apart two people are, or who is on the top/bottom floor.

WORKED EXAMPLE Three people P, Q, R live on floors 1–3. P lives above R; Q lives on the top floor. Q is on floor 3 (top). P is above R, so with floor 3 taken, P is on floor 2 and R on floor 1. Arrangement (top → bottom): floor 3 Q · floor 2 P · floor 1 R.

COMMON MISTAKE lowest = floor 1, topmost = floor N (don't read "floor 1" as the top).

Row seating. People sit in a single row, all facing the same way (north). Seat 1 is the far left and seat N is the far right, so "left" and "right" are the reader's left and right. Clues fix ends, neighbours, Nth-from-an-end positions, and how many sit between two people.

WORKED EXAMPLE P, Q, R sit in a row facing north (seat 1 = far left). P sits at the far left; R sits to Q's right. P is in seat 1. R is to Q's right, so Q is in seat 2 and R in seat 3. Arrangement (left → right): P · Q · R.

COMMON MISTAKE all face north, so left/right are the reader's left/right (seat 1 = far left).

Order & Ranking. People are ranked from 1 to N with no ties. Rank 1 is the top (highest) and rank N is the bottom (lowest). Clues fix who ranks above/below whom, Nth-from-top or Nth-from-bottom positions, and how many people rank between two people.

WORKED EXAMPLE L, M, N are ranked 1–3 (rank 1 = top). L ranks above M; N is ranked last. N is rank 3 (bottom). L above M, with rank 3 taken, puts L at rank 1 and M at rank 2. Order (top → bottom): rank 1 L · rank 2 M · rank 3 N.

COMMON MISTAKE rank 1 = top (highest); rank N = bottom (lowest).

Circular seating. People sit around a circular table, all facing the centre. Because everyone faces in, a person's LEFT is the next seat clockwise and their RIGHT is the next seat anticlockwise. Clues fix neighbours, who faces whom (even N), and how many sit between two people.

WORKED EXAMPLE A, B, C, D sit around a table facing the centre. B is immediately to the left of A; C faces A. Facing the centre, B's seat is one step clockwise from A. With 4 seats, C is directly opposite A. Clockwise from A: A · B · C · D — so D is immediately to A's right.

COMMON MISTAKE facing the centre ⇒ LEFT = clockwise, RIGHT = anticlockwise.

Double-row (facing) seating. Two equal rows sit facing each other in aligned columns — one row faces north, the other faces south. The person "opposite" someone sits in the SAME column in the other row. Because the rows face opposite ways, a north-facer's left is a south-facer's right.

WORKED EXAMPLE P, Q face south; X, Y face north, in two rows. P is opposite X; Q sits to P's right. P and X share a column. P faces south, so P's right points WEST — Q takes the west seat, P the east; opposite Q is Y. North row (W→E): Y · X | South row (W→E): Q · P — and Q faces Y.

COMMON MISTAKE the person opposite X is in the SAME column, the other row (not diagonally across).

Contents

29 puzzles in 3 sections, plus the answer key. Puzzles are numbered **1–29 straight through** — the section lists that follow are slices of that one run, and the answer key uses the same numbers.

1 **Clerk Prelims (Speed & Direct Flow)** — **Puzzles 1–10** — 10 puzzles · 10E / 0M / 0H

2 **PO Prelims (Branching & Uncertainties)** — **Puzzles 11–20** — 10 puzzles · 0E / 10M / 0H

3 **PO Mains (Multi-Variable & Complex Grids)** — **Puzzles 21–29** — 9 puzzles · 0E / 0M / 9H

✓ **Answer key** — **All 29** — answer key
The correct option for every puzzle, in the same numbering.

How to move around: each section opens with its own contents list, and every puzzle header carries a link back to that list.

Puzzle 1 EASY

↑ Section index

Tarun, Neha, Priya, Deepak live on the 4 different floors of a building (floor 1 = lowest, floor 4 = topmost).

Clues:

- Deepak lives on a floor somewhere above Priya.
- There are exactly 2 floors between Priya and Deepak.
- Tarun lives on an odd-numbered floor.
- Neha lives on a floor somewhere above Priya.

Question:

Who lives on floor 2? (The lowest floor is floor 1; the topmost is floor 4.)

Puzzle 2 EASY

↑ Section index

Yash, Aditi, Priya, Deepak, Divya sit around a circular table, all facing the centre.

Clues:

- Aditi sits next to Deepak.
- Exactly 1 person sits between Aditi and Priya (the shorter way).
- Priya sits 2nd to the left of Yash (all facing the centre).
- Divya sits 2nd to the right of Deepak (all facing the centre).

Question:

Who sits immediately to the LEFT of Yash (all facing the centre)?

© 2026 Launchship IT & Media Services Pvt. Ltd.

Puzzle 3 EASY

↑ Section index

Lata, Vikram, Meera, Varun, Anjali, Geeta, Bhavna, Sanjay sit around a square table — 4 at the corners, 4 at the middle of the sides.

Clues:

- Vikram sits 2nd to the left of Lata (all facing the centre).
- Varun sits at the middle of one of the sides.
- Anjali sits 2nd to the right of Varun (all facing the centre).
- Anjali sits immediately to the left of Vikram (all facing the centre).
- Meera sits 2nd to the right of Sanjay (all facing the centre).
- Geeta sits immediately to the right of Vikram (all facing the centre).
- Sanjay sits immediately to the right of Bhavna (all facing the centre).

Question:

Who sits directly opposite Lata at the square table?

Puzzle 4 EASY

↑ Section index

Neha, Kiran, Divya, Isha sit in a row of 4 seats, all facing north (seat 1 = far left, seat 4 = far right).

Clues:

- Exactly 1 person sits between Neha and Isha.
- Kiran sits somewhere to the right of Isha.
- Divya sits at the far-right (extreme) end of the row.

Question:

Who sits in seat 2 counting from the left end? (Seat 1 = far left … seat 4 = far right.)

© 2026 Launchship IT & Media Services Pvt. Ltd.

Puzzle 5 EASY

↑ Section index

Zoya, Lata, Geeta, Jaya sit in two rows of 2, facing each other — one row faces north, the other faces south, aligned in columns.

Clues:

- Jaya sits immediately to the left of Zoya (both facing north).
- Lata faces south.
- Lata sits immediately to the left of Geeta (both facing south).

Question:

Who sits directly opposite (faces) Zoya?

Puzzle 6 EASY

↑ Section index

Isha, Gauri, Vikram, Sneha live in a building of 2 floors with 2 flats on each floor, East and West (floor 1 = lowest, floor 2 = topmost).

Clues:

- Vikram lives in the East flat.
- Isha lives on the floor immediately above Vikram.
- Sneha lives on the lowest floor.
- Gauri lives in the West flat.

Question:

Who lives in the East flat on floor 1? (Floor 1 is the lowest; floor 2 is the topmost.)

Puzzle 7 EASY

↑ Section index

Manish, Uma, Meera, Gauri are ranked from 1 to 4 (rank 1 = highest, rank 4 = lowest); no two share a rank.

Clues:

- Uma is ranked lower than Gauri.
- Gauri is ranked immediately above Manish.
- Exactly 1 person is ranked between Meera and Gauri.

Question:

Who is ranked 2nd from the top? (Rank 1 = highest, rank 4 = lowest.)

© 2026 Launchship IT & Media Services Pvt. Ltd.

Puzzle 8 EASY

↑ Section index

Tanvi, Farhan, Vikram, Geeta each have an appointment on a different day of a 4-day week starting Monday.

Clues:

- Geeta's appointment is on a later day of the week than Vikram's.
- Farhan's appointment is on Monday.
- Tanvi's appointment is on Thursday.

Question:

Whose appointment is on Tuesday? (Day 1 is Monday.)

Puzzle 9 EASY

↑ Section index

Box H, Box A, Box B, Box D are kept in a single vertical stack of 4 (position 1 = bottom, position 4 = top).

Clues:

- Box H is kept somewhere above Box B.
- Box D is kept somewhere above Box H.
- Exactly one box is kept between Box A and Box B.

Question:

Which box is kept at position 2 from the bottom? (Position 1 is the bottom; position 4 is the top.)

SEATING ARRANGEMENT MCQ

Who sits second to the left of Deepak?

Given:

- Esha, Omkar, Deepak, Neha sit in a row, all facing north. Seat 1 is the far-left end and seat 4 is the far-right end.
- Neha sits immediately to the right of Deepak.
- Omkar sits somewhere to the left of Neha.
- Omkar sits immediately to the right of Esha.

Options:

A Deepak

B Esha

C Neha

D None of these

E Omkar

DATA SUFFICIENCY (FLOOR)

Each person lives on a different floor (1–5). Which statements are sufficient to fix EVERY person's floor?

Given:

- Statement I: There are exactly 2 floors between Yash and Bhavna; Divya lives on the floor immediately above Tarun; Yash lives on the topmost floor; Esha lives on an odd-numbered floor.
- Statement II: Esha lives on the lowest floor; Yash lives on the floor immediately above Divya.

Options:

A Statement I alone is sufficient, but II alone is not.

B Statement II alone is sufficient, but I alone is not.

C Each statement ALONE is sufficient.

D Both statements TOGETHER are sufficient, but neither alone.

E Even both statements together are NOT sufficient.

Puzzle 12 MEDIUM

↑ Section index

DATA SUFFICIENCY (RANKING)

5 people are ranked from 1 (highest) to 5 (lowest), no ties. Read Statements I and II, then decide which, if any, are sufficient to fix EVERY person's rank.

Given:

- Statement I: Exactly 1 person is ranked between Meera and Neha; Omkar is ranked lower than Farhan; Farhan is ranked higher than Neha; Exactly 2 people are ranked between Vikram and Meera.
- Statement II: Omkar is ranked immediately below Neha; Vikram is ranked lower than Farhan; Meera is ranked LAST (lowest); Omkar is 4th from the top.

Options:

A Statement I alone is sufficient, but II alone is not.

B Statement II alone is sufficient, but I alone is not.

C Each statement ALONE is sufficient.

D Both statements TOGETHER are sufficient, but neither alone.

E Even both statements together are NOT sufficient.

CODING-DECODING (LETTER SHIFT)

In a certain code, "MOON" is written as "TVVU". The code for a word is "ZAHY". What was the original word?

Given:

- Determine the coding pattern from the example and apply it to find the original word.

Options:

A STAR

B SNOW

C RAIN

D ROAD

E BOOK

Puzzle 14 MEDIUM

↑ Section index

MESSAGE CODING-DECODING

What is the code for "train"?

Given:

- "train bright paper" is coded as "su pa fi".
- "train bright river" is coded as "za su fi".

Options:

A ro

B za

C du

D mo

E fi

Puzzle 17 MEDIUM

↑ Section index

LETTER CLASSIFICATION

Four of these five letter clusters follow the same alphabet-gap pattern. Which one is the odd one out?

Given:

- Check the gap between consecutive letters inside each cluster.
- All five clusters span the same distance, so compare the individual steps.

Options:

A OTX

B AFJ

C CHL

D GLP

E JNS

Puzzle 18 MEDIUM

↑ Section index

SYLLOGISM (STATEMENTS & CONCLUSIONS)

Take the two statements to be true even if they differ from commonly known facts, then decide which conclusion logically follows.

Given:

- Statements: All birds are animals. All animals are rabbits.
- Conclusion I: Some birds are rabbits.
- Conclusion II: No rabbits are birds.

Options:

A Only conclusion I follows

B Only conclusion II follows

C Either conclusion I or II follows

D Neither conclusion I nor II follows

E Both conclusions I and II follow

ELIGIBILITY TEST (DECISION MAKING)

Study the eligibility criteria and the candidate's profile, then choose the course of action. Base the decision STRICTLY on the information provided — do not assume anything.

Given:

- A bank is recruiting Probationary Officers. A candidate must —
- (a) be not less than 20 years and not more than 31 years of age as on 1st March 2026.
- (b) have secured at least 60% marks in graduation.
- (c) have secured at least 50% marks in the written examination.
- (d) have at least 1 year of work experience.
- (e) have secured at least 40% marks in the personal interview.
- However, if a candidate fulfils all the conditions EXCEPT (b), but holds a post-graduate degree, the case is to be referred to the General Manager.
- Further, if a candidate fulfils all the conditions EXCEPT (d), but has secured at least 65% marks in the written examination, the case is to be referred to the General Manager.
- Profile of Farhan Khan —
- Farhan was born on 27th May 1996.
- Farhan secured 73% marks in graduation.
- Farhan holds a post-graduate degree.
- Farhan secured 69% marks in the written examination.
- Farhan has 0 years of work experience.
- Farhan secured 58% marks in the personal interview.

Options:

A Candidate is to be selected

B Candidate is not to be selected

C Case is to be referred to the General Manager

D Data inadequate — the decision cannot be taken
