How to Use This Sample

Arrangement puzzles give you a small group of people in a fixed arrangement (seats in a row or circle, a square table, floors, two facing rows, a stack of boxes, a week of appointments, or a 1-to-N ranking) and a handful of logic clues — eliminate the impossible placements, find the single arrangement that fits, then answer the question. Multiple-choice puzzles (syllogism, inequality, blood relations, coding-decoding, classification, data sufficiency, series, direction, input-output, eligibility and more) give a short prompt and options A–E — work the rule and pick the one defensible answer.

Method: draw the structure → find the absolute clue (an end / opposite / top floor / rank) → translate relative clues (left/right/higher-lower/next-to) into eliminations → check every clue before answering. Target ~60-90 seconds each — IBPS/SBI exam pace.

Every arrangement puzzle is **solver-validated** (exactly one arrangement fits all clues) and every MCQ answer is **engine-validated**. This sample is 20 of the 150 puzzles in the full eBook.

How to Read Each Arrangement Type

A quick orientation to the five arrangement layouts, each with a tiny worked example and the one mistake that trips most solvers. (Multiple-choice types are self-explanatory from the prompt.)

Floor arrangement. People live on the numbered floors of a building, one per floor. Floor 1 is the lowest and floor N is the topmost. Clues fix who is above/below whom, how many floors apart two people are, or who is on the top/bottom floor.

WORKED EXAMPLE Three people P, Q, R live on floors 1–3. P lives above R; Q lives on the top floor. Q is on floor 3 (top). P is above R, so with floor 3 taken, P is on floor 2 and R on floor 1. Arrangement (top → bottom): floor 3 Q · floor 2 P · floor 1 R.

COMMON MISTAKE lowest = floor 1, topmost = floor N (don't read "floor 1" as the top).

Circular seating. People sit around a circular table, all facing the centre. Because everyone faces in, a person's LEFT is the next seat clockwise and their RIGHT is the next seat anticlockwise. Clues fix neighbours, who faces whom (even N), and how many sit between two people.

WORKED EXAMPLE A, B, C, D sit around a table facing the centre. B is immediately to the left of A; C faces A. Facing the centre, B's seat is one step clockwise from A. With 4 seats, C is directly opposite A. Clockwise from A: A · B · C · D — so D is immediately to A's right.

COMMON MISTAKE facing the centre ⇒ LEFT = clockwise, RIGHT = anticlockwise.

Row seating. People sit in a single row, all facing the same way (north). Seat 1 is the far left and seat N is the far right, so "left" and "right" are the reader's left and right. Clues fix ends, neighbours, Nth-from-an-end positions, and how many sit between two people.

WORKED EXAMPLE P, Q, R sit in a row facing north (seat 1 = far left). P sits at the far left; R sits to Q's right. P is in seat 1. R is to Q's right, so Q is in seat 2 and R in seat 3. Arrangement (left → right): P · Q · R.

COMMON MISTAKE all face north, so left/right are the reader's left/right (seat 1 = far left).

Double-row (facing) seating. Two equal rows sit facing each other in aligned columns — one row faces north, the other faces south. The person "opposite" someone sits in the SAME column in the other row. Because the rows face opposite ways, a north-facer's left is a south-facer's right.

WORKED EXAMPLE P, Q face south; X, Y face north, in two rows. P is opposite X; Q sits to P's right. P and X share a column. P faces south, so P's right points WEST — Q takes the west seat, P the east; opposite Q is Y. North row (W → E): Y · X | South row (W → E): Q · P — and Q faces Y.

COMMON MISTAKE the person opposite X is in the SAME column, the other row (not diagonally across).

Order & Ranking. People are ranked from 1 to N with no ties. Rank 1 is the top (highest) and rank N is the bottom (lowest). Clues fix who ranks above/below whom, Nth-from-top or Nth-from-bottom positions, and how many people rank between two people.

WORKED EXAMPLE L, M, N are ranked 1–3 (rank 1 = top). L ranks above M; N is ranked last. N is rank 3 (bottom). L above M, with rank 3 taken, puts L at rank 1 and M at rank 2. Order (top → bottom): rank 1 L · rank 2 M · rank 3 N.

COMMON MISTAKE rank 1 = top (highest); rank N = bottom (lowest).

Puzzle 1 EASY[↑ Index](#)

Rahul, Esha, Priya, Anjali live on the 4 different floors of a building (floor 1 = lowest, floor 4 = topmost).

Clues:

- There are exactly 2 floors between Rahul and Priya.
- Priya lives on the floor immediately above Esha.
- Anjali lives on a floor somewhere above Rahul.

Question:

Who lives on floor 2? (The lowest floor is floor 1; the topmost is floor 4.)

Puzzle 2 EASY[↑ Index](#)

Yash, Vikram, Farhan, Pooja, Meera sit around a circular table, all facing the centre.

Clues:

- Exactly 1 person sits between Farhan and Meera (the shorter way).
- Meera sits 2nd to the right of Yash (all facing the centre).
- Pooja sits immediately to the right of Meera (all facing the centre).
- Exactly 1 person sits between Vikram and Farhan (the shorter way).

Question:

Who sits immediately to the LEFT of Yash (all facing the centre)?

Puzzle 3 EASY[↑ Index](#)

Priya, Vikram, Bhavna, Isha, Omkar, Rahul, Anjali, Meera sit around a square table — 4 at the corners, 4 at the middle of the sides.

Clues:

- Anjali sits immediately to the right of Bhavna (all facing the centre).
- Vikram sits next to Meera.
- Meera sits immediately to the right of Isha (all facing the centre).
- Priya sits directly opposite Anjali.
- Vikram sits 2nd to the left of Omkar (all facing the centre).
- Isha sits at the middle of one of the sides.
- Omkar sits next to Rahul.

Question:

Who sits directly opposite Vikram at the square table?

Puzzle 4 EASY[↑ Index](#)

Chetan, Varun, Omkar, Nikhil sit in a row of 4 seats, all facing north (seat 1 = far left, seat 4 = far right).

Clues:

- Omkar sits somewhere to the right of Varun.
- Omkar sits somewhere to the left of Chetan.
- Chetan sits somewhere to the left of Nikhil.

Question:

Who sits in seat 2 counting from the left end? (Seat 1 = far left ... seat 4 = far right.)

Puzzle 5 EASY[↑ Index](#)

Zoya, Kiran, Pooja, Nikhil sit in two rows of 2, facing each other — one row faces north, the other faces south, aligned in columns.

Clues:

- Zoya faces north.
- Pooja sits immediately to the left of Kiran (both facing south).
- Nikhil sits immediately to the left of Zoya (both facing north).

Question:

Who sits directly opposite (faces) Zoya?

Puzzle 6 EASY[↑ Index](#)

Omkar, Sanjay, Lata, Karan are ranked from 1 to 4 (rank 1 = highest, rank 4 = lowest); no two share a rank.

Clues:

- Sanjay is ranked higher than Omkar.
- Lata is ranked higher than Sanjay.
- Exactly 1 person is ranked between Omkar and Karan.

Question:

Who is ranked 2nd from the top? (Rank 1 = highest, rank 4 = lowest.)

Puzzle 7 EASY[↑ Index](#)

Farhan, Manish, Tanvi, Zoya each have an appointment on a different day of a 4-day week starting Monday.

Clues:

- Farhan's appointment is on a later day of the week than Zoya's.
- Farhan's appointment is on an earlier day of the week than Tanvi's.
- Zoya's appointment is on the day immediately after Manish's.

Question:

Whose appointment is on Tuesday? (Day 1 is Monday.)

Puzzle 8**EASY**[↑ Index](#)

Box D, Box H, Box G, Box C are kept in a single vertical stack of 4 (position 1 = bottom, position 4 = top).

Clues:

- Box C is kept 4th from the top of the stack.
- Box D is kept 3rd from the top of the stack.
- Box G is kept immediately above Box D.
- Box G is kept immediately below Box H.

Question:

Which box is kept at position 3 from the bottom? (Position 1 is the bottom; position 4 is the top.)

Puzzle 9**EASY**[↑ Index](#)**SEATING ARRANGEMENT MCQ**

Who sits second to the left of Priya?

Given:

- Yash, Varun, Priya, Imran sit in a row, all facing north. Seat 1 is the far-left end and seat 4 is the far-right end.
- Varun sits somewhere to the left of Yash.
- Imran sits immediately to the right of Varun.
- Yash sits somewhere to the left of Priya.

Options:

- A** Yash
- B** None of these
- C** Priya
- D** Varun
- E** Imran

Puzzle 10 **EASY**[↑ Index](#)**DATA SUFFICIENCY (FLOOR)**

Each person lives on a different floor (1–4). Which statements are sufficient to fix EVERY person's floor?

Given:

- Statement I: Kiran lives on the floor immediately above Anjali; Rahul lives on a floor somewhere above Anjali; There are exactly 2 floors between Deepak and Rahul.
- Statement II: There is exactly 1 floor between Anjali and Rahul; Deepak lives on the lowest floor; Kiran lives on a floor somewhere above Deepak; Anjali lives on the floor immediately above Deepak.

Options:

- A** Statement I alone is sufficient, but II alone is not.
- B** Statement II alone is sufficient, but I alone is not.
- C** Each statement ALONE is sufficient.
- D** Both statements TOGETHER are sufficient, but neither alone.
- E** Even both statements together are NOT sufficient.

Puzzle 11 **MEDIUM**[↑ Index](#)**DATA SUFFICIENCY (RANKING)**

5 people are ranked from 1 (highest) to 5 (lowest), no ties. Read Statements I and II, then decide which, if any, are sufficient to fix EVERY person's rank.

Given:

- Statement I: Rahul is ranked immediately below Manish; Nikhil is ranked higher than Manish; Manish is ranked higher than Isha.
- Statement II: Rahul is ranked lower than Nikhil; Manish is 3rd from the bottom; Rahul is ranked higher than Isha; Exactly 2 people are ranked between Nikhil and Rahul; Vikram is 4th from the bottom.

Options:

- A** Statement I alone is sufficient, but II alone is not.
- B** Statement II alone is sufficient, but I alone is not.
- C** Each statement ALONE is sufficient.
- D** Both statements TOGETHER are sufficient, but neither alone.
- E** Even both statements together are NOT sufficient.

Puzzle 12**MEDIUM**[↑ Index](#)**CODING-DECODING (LETTER SHIFT)**

In a certain code, "ROSE" is written as "WTXJ". The code for a word is "GNWI". What was the original word?

Given:

- Determine the coding pattern from the example and apply it to find the original word.

Options:

- A** BOOK
- B** BIRD
- C** SNOW
- D** RAIN
- E** LAMP

Puzzle 13**MEDIUM**[↑ Index](#)**MESSAGE CODING-DECODING**

What is the code for "market"?

Given:

- "market red paper" is coded as "to fi mi".
- "market red green" is coded as "mi mo to".

Options:

- A** du
- B** mi
- C** mo
- D** su
- E** la

Puzzle 14 MEDIUM[↑ Index](#)**CLASSIFICATION (ODD ONE OUT)**

Four of these five numbers are alike in a certain way and form a group. Which number does NOT belong to that group?

Options:

- A 18
- B 12
- C 48
- D 72
- E 62

Puzzle 15 MEDIUM[↑ Index](#)**NUMBER ANALOGY**

13 : 168 :: 5 : ?

Given:

- Work out how the first number becomes the second, then apply the same rule to the third.

Options:

- A 24
- B 22
- C 21
- D 23
- E 19

Puzzle 16**MEDIUM**[↑ Index](#)**LETTER CLASSIFICATION**

Four of these five letter clusters follow the same alphabet-gap pattern. Which one is the odd one out?

Given:

- Check the gap between consecutive letters inside each cluster.
- All five clusters span the same distance, so compare the individual steps.

Options:

- A** GJL
- B** NPS
- C** CEH
- D** SUX
- E** RTW

Puzzle 17**MEDIUM**[↑ Index](#)**SYLLOGISM (STATEMENTS & CONCLUSIONS)**

Take the two statements to be true even if they differ from commonly known facts, then decide which conclusion logically follows.

Given:

- Statements: Some orchids are lilies. All lilies are flowers.
- Conclusion I: Some orchids are not flowers.
- Conclusion II: Some orchids are flowers.

Options:

- A** Only conclusion I follows
- B** Only conclusion II follows
- C** Either conclusion I or II follows
- D** Neither conclusion I nor II follows
- E** Both conclusions I and II follow

Puzzle 18 MEDIUM[↑ Index](#)**BLOOD RELATIONS**

How is Deepak related to Priya?

Given:

- Use only the relationships stated below.
- Deepak is the son of Manish.
- Priya is the mother of Manish.

Options:

- A** granddaughter
- B** grandfather
- C** nephew
- D** grandson
- E** uncle

Puzzle 19 MEDIUM[↑ Index](#)**CODED BLOOD RELATIONS**

If the expression is "Ramesh + Arjun + Rohan", how is Ramesh related to Rohan?

Given:

- Code: A + B means A is father of B.
- Code: A - B means A is mother of B.
- Code: A * B means A is brother of B.
- Code: A / B means A is sister of B.

Options:

- A** grandmother
- B** uncle
- C** grandfather
- D** grandson
- E** aunt

Puzzle 20**HARD**[↑ Index](#)**PHOTOGRAPH BLOOD RELATIONS**

Pointing to the girl in a photograph, Amit said, "She is the daughter of my father's only son." How is the girl related to Amit?

Given:

- Read the statement from the speaker's point of view.

Options:

- A** nephew
- B** mother
- C** son
- D** daughter
- E** aunt

Puzzle 21**HARD**[↑ Index](#)**CODED INEQUALITY**

Which of the following conclusions is DEFINITELY true from the given expression?

Given:

- Code: @ = >, % = >=, * = <, \$ = <=, # = =
- Expression: B @ E, E # D, D @ F, F @ C

Options:

- A** D <= F
- B** B <= E
- C** E <= C
- D** B > F
- E** F = D

Puzzle 22**HARD**[↑ Index](#)**NUMBER SERIES (FIND THE MISSING TERM)**

What number replaces the question mark?

Given:

- 11, 30, 67, 128, 219, ?

Options:

- A** 348
- B** 347
- C** 344
- D** 345
- E** 346

Puzzle 23**HARD**[↑ Index](#)**ALPHABET TEST**

If the letters of the word "MEDICAL" are arranged in alphabetical order (left to right), how many letters remain in the same position as in the original word?

Options:

- A** None
- B** One
- C** Three
- D** Four
- E** Two

Puzzle 24**HARD**[↑ Index](#)**INPUT-OUTPUT (MACHINE REARRANGEMENT)**

A machine rearranges an input line of words and numbers step by step, following one fixed rule (study the sample below). How many steps does the machine need to complete the arrangement of the New Input?

Given:

- Sample Input: yard dew 24 ocean 30 bridge 28
- Step I: dew yard 24 ocean 30 bridge 28
- Step II: dew yard ocean 24 30 bridge 28
- (Only the first 2 steps of the sample are shown; the machine continues until the arrangement is complete.)
- New Input: 13 valley mirror pearl apple 48 84

Options:

- A** 2
- B** 3
- C** 5
- D** 6
- E** 4

Puzzle 25**HARD**[↑ Index](#)**UNCERTAIN PERSONS**

What is Nikhil's position from the right end of the row?

Given:

- Some persons are sitting in a single row, all facing north. The total number of persons in the row is NOT known. Positions are counted from the left end unless a clue says otherwise.
- Divya is 6th from the right end of the row.
- Varun sits 3rd to the left of Divya.
- Exactly 11 persons sit between Pooja and Nikhil.
- Varun sits 2nd to the left of Pooja.

Options:

- A** 23
- B** 19
- C** 21
- D** 17
- E** 20

Puzzle 26**HARD**[↑ Index](#)***DIRECTION & DISTANCE***

How far and in which direction is Ritu from the starting point?

Given:

- Ritu starts from a point and walks 7 m towards East.
- She then walks 4 m towards North.
- She then turns left and walks 3 m.
- She then turns right and walks 2 m.
- She then turns right and walks 2 m.

Options:

- A** 12 m North-East
- B** $6\sqrt{2}$ m South-West
- C** 6 m North-East
- D** $6\sqrt{2}$ m North
- E** $6\sqrt{2}$ m North-East

Puzzle 27**HARD**[↑ Index](#)***ALPHANUMERIC SERIES***

If all the digits are dropped from the series, which element will be 5th from the right end?

Given:

- 1 5 V L \$ 6 J 3 B @ 2 Q P W %

Options:

- A** Q
- B** @
- C** B
- D** 3
- E** 2

Puzzle 28**HARD**[↑ Index](#)**ELIGIBILITY TEST (DECISION MAKING)**

Study the eligibility criteria and the candidate's profile, then choose the course of action. Base the decision **STRICTLY** on the information provided — do not assume anything.

Given:

- A bank is recruiting Probationary Officers. A candidate must —
- (a) be not less than 20 years and not more than 30 years of age as on 1st March 2026.
- (b) have secured at least 65% marks in graduation.
- (c) have secured at least 60% marks in the written examination.
- (d) have at least 1 year of work experience.
- (e) have secured at least 35% marks in the personal interview.
- However, if a candidate fulfils all the conditions EXCEPT (b), but holds a post-graduate degree, the case is to be referred to the General Manager.
- Further, if a candidate fulfils all the conditions EXCEPT (d), but has secured at least 75% marks in the written examination, the case is to be referred to the General Manager.
- Profile of Anita Kulkarni —
- Anita was born on 16th September 2000.
- Anita secured 69% marks in graduation.
- Anita holds a post-graduate degree.
- Anita secured 60% marks in the written examination.
- Anita has 3 years of work experience.
- Anita secured 38% marks in the personal interview.

Options:

- A** Candidate is to be selected
- B** Candidate is not to be selected
- C** Case is to be referred to the General Manager
- D** Data inadequate — the decision cannot be taken

Answer Key

Check your answers below. **The worked deduction chains — clue by clue, the order that cracks each puzzle — are not in this file.** They're free at the link on any page: the answer tells you what, the method tells you how, and on exam day the method is what saves you two minutes a question.

- | | | | |
|----|--|----|--------------------------------|
| 1 | Anjali lives on floor 2. | 15 | A) 24 |
| 2 | Farhan sits immediately to the left of Yash. | 16 | A) GJL |
| 3 | Bhavna sits directly opposite Vikram. | 17 | B) Only conclusion II follows |
| 4 | Omkar sits in seat 2. | 18 | D) grandson |
| 5 | Pooja sits directly opposite Zoya. | 19 | C) grandfather |
| 6 | Karan is ranked 2nd from the top. | 20 | D) daughter |
| 7 | Zoya's appointment is on Tuesday. | 21 | D) $B > F$ |
| 8 | Box G is kept at position 3 from the bottom. | 22 | E) 346 |
| 9 | E) Imran | 23 | B) One |
| 10 | C) Each statement ALONE is sufficient. | 24 | E) 4 |
| 11 | B) Statement II alone is sufficient, but I alone is not. | 25 | B) 19 |
| 12 | B) BIRD | 26 | E) $6\sqrt{2}$ m North-East |
| 13 | B) mi | 27 | B) @ |
| 14 | E) 62 | 28 | A) Candidate is to be selected |
